Introducing the Class of 1990, whose odyssey through medical school will be highlighted in the pages of this yearbook. Four years ago, we came together here as strangers, to each other and to our chosen profession. We leave as friends, as colleagues, as doctors.

The class of 1990 would like to dedicate this yearbook to our families, without whose love, support and encouragement, this time in medical school would have been so much more difficult. We appreciate your strength, your compassion, your patience, and for being there when we needed you. Thank You.

Mentors

Marianne Senese & David Feinberg have fun playing with kids.

Cheryl Neihaus asks the all important question "are we having fun yet?"

Dr. Gianopoulos has fun winning awards. This is one for Best Clinical Instructor.

Frank Giordano & Steve Sapyta are glad they are almost done having fun. They are ready to pass their responsibilities on to Elaine Winkel.

Elaine Winkel's "fun" comes next year as Chief Resident.

Dr. Kim always has fun

Dan Herriman is "slow working" in the ER at St. Jude's.

Kurt Erickson has fun reading EKGs and keeping an eye on trainees. Watch out Dan!

Definition: Fun - MARCO!
Marco impressed every student with his wit, charm and love of teaching. As a result, he was named Resident of the Year. Congrats Marco!

Then there's Dr. Pickleman

Last years Best Resident, Tony Gregg, tries to get Bernd to have fun, but it looks like he's napping.

Bill Cannon would be having fun if it weren't for the phone stuck in his ear.

Min Kim has fun on the floor.

Steve Solik & Greg Yahiro have fun just standing around. Meanwhile, Paul tries to have fun helping a Medicine resident read up on surgery.

Only Dr. La Velle could make Histology fun.

Marcio has fun mugging for the camera.

In Memoriam

John M. Fahey, S.J.

"The first definition of a Jesuit is 'a member of a religious order,' the second is 'a lying, crafty, untrustworthy intriguer.' This lying, double-talking Jesuit welcomes you to Loyola. My door is always open. I don't preach and you don't have to be Catholic. I am here for you."

John M. Fahey, S. J. was the assistant vice president of University Ministry and student advisor. He was also party-giver, teacher, and friend. He initiated events that are now integral to the character of Loyola-Stritch. We will all remember the Jesuit dinners, the medical student-faculty picnic, St. Luke's Day, student-faculty retreats, and the St. Lucia program. We thank Father Fahey for his dedication to Loyola and its students. We miss him.

CHRISTIAN MEDICAL & DENTAL SOCIETY

A Fellowship of Physicians and Dentists

Some of the events sponsored by AMWA include Lunch With the Docs, the Surviving Clerkships Panel, the Career Options Panel, Career Night, and the play "Awakenings".

The officers and representatives include Dan Huie (Chair), Dan Digiulio (Vice Chair), Scott Steinbach (Secretary), Pete McCauley (Treasurer), Kevin Tarrant (ISMS delegate) Abby Von Heimburg (ISMS alternate), and Pete Selz (CMS rep). The AMA faculty advisor is Paul O'Keefe, MD. The AMA sponsored events such as the Medical Student recruitment at the Lakeshore campus and the Medical Malpractice Forum.

Amnesty International

Amnesty International is a politically neutral international organization that tries to protect the human rights of people who have been imprisoned for the peaceful expression of their principles.

The Health Professionals Network of Amnesty International is more specifically concerned with the medical condition, both physical and psychological, of these "prisoners of conscience." It also takes a special interest in the cases of physicians and other health-care personnel who are imprisoned for treating the "wrong" people in repressive political situations.

At Loyola Stritch School of Medicine the organization primarily tries to present issues to medical students that highlight possible ways they can participate as physicians in the worldwide struggle for freedom and human rights.

Speakers included doctors from Palestine, discussing health care issues in that region.

Physicians for Social Responsibility

Physicians for Social Responsibility is the American branch of the International Physicians for the Prevention of Nuclear War, winner of the 1985 Nobel Peace Prize.

The Loyola chapter sponsored movies and speakers, including visiting Soviet physicians who presented at Department of Medicine Grand Rounds. "The Unforgettable Fire," an exhibit of art by atomic bomb survivors, was held at the Peace Museum Chicago. Several members also attended the National Convention in Washington, D.C.

Dear Abby,

In your April 27, 1987 Neuroscience co-op you included some quotes from the Loyola-Stritch Class of 1990. Could you please reprint them? Thanks, I'm a big fan!!

P.S. Remember, these quotes reflected the times in 1987 — things may have changed! And, as I said in the original printing — if I missed your quote, I'm sorry; if I didn't miss your quote, I'm sorrier!

Between the exhilaration of Beginning...
And the Satisfaction of Concluding,
Is the Middle-Time of Enduring...Changing...Trying...
Despairing...Continuing...Becoming.
And we in our Middle-Times of Wondering and Waiting,
Hurrying and Hesitating, Regretting and Revising-
We who have begun many things...
And seen but few completed-
We who are becoming more...and less-
Through the evidence of God's Middle-Time
Have a stabilizing hint
That we are not mistakes,
That we are irreplaceable,
That our Being is of interest,
And our Doing is of purpose,
That our Being and Doing are surrounded by Amen.

The Road Not Taken

Two roads diverged in a yellow wood,
And sorry I could not travel both
And be one traveler, long I stood
And looked down one as far as I could
To where it bent in the undergrowth;

Then took the other, as just as fair
And having perhaps the better claim,
Because it was grassy and wanted wear;
Though as for that, the passing there
Had worn them really about the same,

And both that morning equally lay
In leaves no step had trodden black.
Oh, I kept the first for another day!
Yet knowing how way leads on to way,
I doubted if I should ever come back.

I shall be telling this with a sigh
Somewhere ages and ages hence:
Two roads diverged in a wood, and I-
I took the one less traveled by,
And that has made all the difference.

-Robert Frost

A family too cool for words!

Scott Fridkin

In the future there will be an atomic war that will reduce the survivors to savages.
 In the future water will be expensive.
 In the future all material items will be free.
 In the future everyone's house will be like a little fortress.
 In the future everyone will think about love all the time.
 In the future TV will be so good that the printed word will function as an artform only.
 In the future people with boring jobs will take pills to relieve the boredom.
 In the future everyone but the wealthy will be very happy.
 In the future everyone but the wealthy will be very filthy.
 In the future everyone but the wealthy will be very healthy.
 In the future our bodies will be shriveled up but healthy and our brains will be bigger.
 In the future there will be starving people everywhere.
 In the future no one will be able to afford TV or newspapers resulting in no one knowing what's going on.
 In the future people will live in space.
 In the future only the very wealthy will have pets.
 In the future the poor will be regulated by the rich.
 In the future the crippled, retarded, and helpless will be killed.
 In the future there will be so much going on that no one will be able to keep track of it.

 If you can dream, and not make dreams your matter;
 If you can think, and not make thoughts your aim;
 If you can meet with triumph and disaster, and treat those two imposters just the same; or watch the things you gave your life to, broken, and stoop and build them up with worn out tools;
 If you can make one heap of all your winnings and risk it on one turn of pitch and toss, and lose, and start again at your beginnings and never breathe a word about your loss;
 If you can force your heart and nerve and sinew to serve your turn long after they are gone and so hold on when there is nothing in you except the will which says to them: "Hold on!"
 If neither foes nor loving friends can hurt you,
 If all count with you - but none too much;
 If you can fill the unforgiving minute with sixty seconds worth of distance run.
 Yours is the Earth and everything that's in it . . .

-Rudyard Kipling.

[Sir William Osler [1849-1919]

The profession of medicine is distinguished from all others by its singular beneficence.

Aequanimitas, with Other Addresses, "Chauvinism in Medicine"

Medicine is the only world-wide profession, following everywhere the same methods, actuated by the same ambitions, and pursuing the same ends.

Ibid., "Unity, Peace, and Concord"

Medicine is a science of uncertainty and an art of probability.

Bits and Pieces
Bits and Pieces

People. People important to you,
people unimportant to you cross
your life, touch it with love and
carelessness and move on.

There are people who leave you
and you breathe a sigh of relief
and wonder why you ever came into
contact with them.

There are people who leave you
and you breathe a sigh of remorse
and wonder why they had to go
away and leave such a gaping hole.

Children leave parents, friends leave friends.
Acquaintances move on. People change
homes. People grow apart. Enemies hate
and move on. Friends love and move
on. You think on the many who
have moved into lazy memory. You look
on those present and wonder.

I believe in God's master plan in lives.
He moves people in and out of each others
lives, and each leaves his mark on the
other. You find you are made up of
bits and pieces of all who have ever touched
your life, you are more because of it, and
you would be less if they had not touched you.

Pray, God that you accept the bits and
pieces in humility and wonder,
and never question, and never regret.

To my Parents,

What can I say? Without your wholehearted support, there would be no Dr. Ramsdell. This M.D. is as much yours as mine. I can only hope to repay you by being the best physician I'm capable of being.

To my brother, Tom,

You are my best friend and I love you.

As time passes and we head our separate ways, may we always have the time we had in the past to "walk us out in the Morning Dew, My Honey."

To Grandmumzie,

I miss you! I really wanted you to be here this year to share and celebrate this time with me. Somehow, somewhere, I know that in your own little way you really are here.

We Edies stick together - don't we?

To all my friends, far and near,

You'd have to be crazy to stick out this "med school" thing with me. Thanks for understanding. True friendships are few and far between. No matter how scarce I may have been these last four years, I value and appreciate our relationship more each day.

Hell of a ride, though-eh?

To everyone.

A few parting thoughts . . .

"Lately, it occurs to me what a long, strange trip it's been".

"Once in a while you can show them the light in the strangest of places when you look at it right."

"The wheel is turning and it can't slow down. You can't let go and you can't hold on. You can't go back and you can't stand still and if the thunder don't get you then the lightening will".

Thanks Jerry I couldn't have said it better myself.

"May the four winds roll you safely Home."

Love, Edie.

Match Day fever hits medical students

Seniors sweat out hospital placement

By Tom Seibel

Blood pressure ran high Wednesday morning at Doc Ryan's saloon in Forest Park.

That's where about 100 graduating medical students from Loyola University's Stritch School of Medicine gathered to learn where they would spend their next several years of residency training.

San Francisco Bay area natives Michael Phelan, 29, a University of Chicago medical student, and his wife, Angelica, 28, who attends Loyola, were among the anxious waiting. They took turns holding their bubbling 11-week-old daughter, Stephanie.

The couple requested a placement at a good California hospital where Michael could learn to practice family medicine, and Angelica pediatrics.

They were understandably a little nervous.

Then came the great news. They both had been accepted at the University of California at Irvine. Michael and Angelica both put in their applications through Loyola, though he attends the U. of C., so they could learn their fates together.

The couple hugged and kissed in relief after learning they both received their first choice and were headed for the sunny climes of California.

"No more winters," said an ecstatic Angelica.

Annually, some 15,000 seniors nationwide go through the same ritual at noon, Eastern time, on the same day, called "Match Day."

Similar shindigs were happening around the city at other medical schools.

Many students visited their potential picks before selecting a group and then ordering their preferences. Likewise, the hospitals had listed their preferences and needs to set up the matching scenario.

All that information was put into the computers of the National Residency Matching Program. And then out come the matches.

Most students had made their selection on the basis of hospital reputations. Some had chosen places they would like to live. Others wanted to be near family members.

Not all the students were lucky enough to get their first choices.

Misty eyed Mary Bartel, 25, of Chicago, was comforting her friend Sylvie Cadle, 25, of Monterey, Calif.

"We're both disappointed. I'm going to Dallas; I put in for Houston," said Bartel. "I'm a single, 25-year-old, attractive, young woman. . . . What is there in Dallas?"

Cadle, meanwhile, discovered she was headed for Madison, Wis., instead of her first choice, Colorado.

"Let's go to the beach and fly a kite!" Bartel said
